OUTLOOK AND STRATEGY

Market Review. The BPI Government Bond Index fell month-on-month, losing 0.36% in October as Philippine government bond yields increased by an average of 15 basis points (bps). Average daily trading volume for the month reached Php 39.6 billion, down from Php50.2 billion in September, with most trades concentrated in 5 and 10-year securities. The Bureau of the Treasury (BTr) held three FXTN auctions in October, fully awarding the 5-, 7- and 10-year tenors. Auction highs were generally aligned with secondary market bids at the time, with the BTr awarding at 5.508%, 5.690%, and 5.870%, respectively.

On the domestic front, inflation continued its downward trend as it decelerated to 1.9% in September from 3.3% in August, much lower than economists' median estimate of 2.5%. The lower-than-expected inflation was driven by slower food price increases and a decline in transportation costs. Consequently, the Bangko Sentral ng Pilipinas cut rates by 25 basis points during its policy meeting in October, citing easing price pressures. The BSP will continue to vigilantly monitor economic data releases in determining its policy actions moving forward.

Internationally, US inflation decelerated from 2.5% in August to 2.4% in September, in line with market estimates. However, despite evidence of easing inflation, US Treasuries were extremely volatile for the month as investors anticipated the upcoming US elections in early November.

The Philippine Stock Exchange Index (PSEi) cooled in October following three consecutive months of strong performances. At the beginning of the month, the local bourse continued its ascent to north of 7,500 mark backed by the release of lower-than-expected local inflation print in September at 1.9%. Consequently, the Bangko Sentral ng Pilipinas (BSP) reduced policy rates by 25 basis points to 6.0% for the second time in 2024. However, the PSEi failed to overcome the 7,500 to 7,600 resistance level as profit-taking took place. This coincided with weakness on the Philippine Peso which closed to 58.10 or -3.69% month-on-month. Moreover, risk-off stance was adopted by market players as they awaited the result of the US election. The PSEi gave up 1.78% month-on-month to 7,142.96.

The market turnover slowed to Php5 billion or -24% month-on-month in October. Meanwhile, foreigners continued to be net buyers at US\$22 million, which marked the 4th consecutive month of net foreign buying. Top foreign bought stocks were AC (+US\$24.5 million), BPI (+US\$15 million) and GLO (+US\$10.0 million). In terms of participation level, it was an even split between foreigners and locals at 50%.

On a per stock basis, the top three index gainers for the month include: MER (+11.82%), CNPF (+10.38%) and MONDE (+7.07%). Meanwhile, the bottom three performers include: JGS (-12.59%), WLCON (-12.02%) and ALI (-10.66%). Market breadth was skewed to the negative territory with 23 declines versus 7 advances.

Fund Performance. The fund returned -0.29% in October, below the benchmark by 24 basis points. Year-to-date, the Fund registered a gain of 5.15%, below the benchmark by 19 basis points.

Fund Strategy. The Fund looks to maintain its duration position as interest rates are expected to decline in the medium term. While inflation has settled within the BSP's target in the past months, upside risks are still present. The BSP has already decreased its policy rates by 50 basis points year-to-date to 6.00%. The central bank remains vigilant in monitoring inflation figures before easing rates further. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.

For equities: The Fund will be defensive as uncertainties from post-US Election results, and volatility from geo-political risks coupled with thin market liquidity remain. The Fund's preference is still for companies with leading market capitalization and good fundamentals as well as dividend paying stocks.
