Clients are advised to read the Declaration of Trust / Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The BPI PERA Government Bond Fund is suitable only for investors who:

- Are classified as moderate based on their risk profile
- Have an investment horizon of at least five (5) years.

## KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

**Interest Rate Risk:** Investors are exposed to adverse changes in the prices of domestic fixed income securities due to a rise in interest rates, which generally causes fixed income security prices to decline. Factors/ events that may lead to a rise in interest rates include adverse market conditions, issuer-specific factors / events and/or negative developments in domestic political and economic conditions.

**Liquidity Risk:** Possibility to experience losses due to the fund's inability to convert assets into cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price.

**Related Party Risk:** Risk of any actual or potential conflicts of interest in handling of related party transactions.

**Credit/Default Risk:** Investors are exposed to the risk of loss due to the failure of the borrower/ debt issuer to make timely interest and/ or principal payments on its deposit liabilities, loans, bonds or other debt instruments due to a deterioration in the borrower's/ issuer's financial condition or external factors and events that may affect its ability to repay financial obligations such as negative developments in domestic political and economic conditions.

In accordance with the provisions in the Declaration of Trust, the Fund employs a risk management policy based on duration. The Fund may also use financial derivatives to hedge the portfolio against market and credit risks

## OUTLOOK AND STRATEGY

**Market Review.** The BPI Government Bond Index returned -0.18% in December as Philippine government bond yields rose by an average of 14 basis points (bps). Yields moved up as market participants tempered their policy rate cut expectations as US central bank officials projected fewer rate cuts in 2025. Average daily trading volume for the month fell from Php36.1 billion in November to Php32.1 billion in December, with most trades still concentrated in 5-year and 1-year securities. For the month of December, foreign investors were net sellers of Php26.1 billion, pulling the full-year 2024 total net inflow to Php56.3 billion.

The Bureau of the Treasury (BTr) held its only FXTN auction for the month on December 10, offering Php15 billion of FXTN 10-72 (9.1 years) which was fully awarded at an average yield of 5.89%.

Locally, November headline inflation rose to 2.5% year-on-year (YoY) from 2.3% YoY in October, in line with market expectations. The pick-up in inflation was driven mainly by faster food inflation due to adverse weather conditions. A series of typhoons swept through the Philippines in late-October to November, which impacted local food prices, particularly meat, fish, and vegetables.

**Fund Performance.** The Fund returned 0.00% during the month of December, outperforming its benchmark by 18 basis points.

**Fund Strategy.** The Fund looks to maintain its duration position as interest rates are expected to decline in the medium term. While inflation has settled within the BSP's target in the past months, upside risks are still present. The BSP has already decreased its policy rates by 75 basis points year-to-date to 5.75%. The central bank remains vigilant in monitoring inflation figures before easing rates further. Volatility may persist in the global space, and the portfolio will be actively managed to take advantage of this. Investors in a bond fund must be prepared to withstand volatility as higher investment value is typically achieved over the medium to long term.
