 **Billing is received at the last quarter of the year
 ***Billings received in January 2025

INVESTMENT OBJECTIVE AND STRATEGY

The Fund, operating as a Feeder Fund, intends to achieve long-term capital growth by investing in a Target Fund that aims to provide returns in excess of the return of the MSCI Europe Index. Pursuant to existing BSP rules and regulations, as a Feeder Fund, this Fund is mandated to invest at least 90% of its assets in a single collective investment scheme.

CLIENT SUITABILITY

A client profiling process should be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The BPI European Equity Feeder Fund is for investors who:

- Are at least classified as aggressive based on their risk profile.
- Have an investment horizon of at least five (5) years.

Participation in the Fund shall be open to Participants with legal capacity to contract and who are not considered US persons under the US securities and tax laws, subject to the other conditions, rules or provisions stated in the Plan Rules and those established by the Trustee. No beneficial owner shall hold more than 10% of the Fund. Any investor who owns more than 10% shall be asked to redeem the amount (or its equivalent number of units) in excess of 10% within thirty (30) calendar days.

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Market/Price Risk: Investors are exposed to adverse changes in the prices of large cap stocks in the Eurozone, which may be brought about by adverse market conditions, unfavorable company earnings and valuations, and negative developments in the political and economic conditions of countries where investee companies are domiciled.

Liquidity Risk: Investors are exposed to the risk of loss due to the target fund's inability to convert security holdings to cash immediately or in instances where conversion to cash is possible but at a highly disadvantageous price due to limited participants in the market, low trading volumes, market disruptions, among others.

Country Risk: Investors are exposed to the risk of loss arising from negative developments in the political, economic and social conditions of countries, primarily in Europe, which may adversely affect the value of the feeder fund.

FX Risk: Investors are exposed to the risk of loss from a decline in the market value of the target fund when the market value of EUR denominated equity securities held by the target fund are translated to USD.

The Fund's investment outlets undergo proper screening and evaluation in accordance with the Trustee's accreditation process. The Fund may also use financial derivatives to hedge the portfolio against market and credit risks.

¹ Originally launched as BPI European Equity Index Feeder Fund. The Target Fund was switched from SPDR Euro Stoxx 50 ETF to Wellington Strategic European Equity Fund on April 1, 2016.

² Returns are net of fees.

³ Since Inception.

⁴ Measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time.

⁵ Used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better.

⁶ Measures reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk.

⁷ Cost of buying/selling of shares/units of the Target Fund through dealers/brokers.

⁸ Includes accrued income, investment securities purchased, accrued expenses, etc.

*Declaration of Trust is available upon request through branch of account.

OUTLOOK AND STRATEGY

Market Review. European equities surged. The eurozone economy expanded 0.7% in 2024; however, it unexpectedly stagnated in the fourth quarter, dragged by two straight years of economic contraction in Germany along with political turbulence in the country. In January, the region's business activity returned to expansionary territory for the first time since August 2024, as the HCOB Flash Eurozone Composite Purchasing Managers' Index increased to 50.2, from 49.6 in December. Eurozone employment declined for the sixth straight month, but only marginally. The fastest pace of services sector job growth in six months almost offset a reduction in manufacturing employment. Against a backdrop of lackluster economic growth and an increasingly uncertain outlook, the European Central Bank (ECB) delivered its fourth consecutive 25 basis point rate cut, signaling another reduction in March. ECB President Christine Lagarde emphasized that financing conditions are still tight and monetary policy remains restrictive, while also highlighting uncertainty about economic and inflation dynamics. Annual eurozone headline inflation unexpectedly rose to 2.5% in January, largely driven by energy prices, and core inflation remained unchanged at 2.7%. Europe's manufacturing downturn eased in January; the HCOB Eurozone Manufacturing PMI rose to an eight-month high of 46.6, as contractions in output, new orders, inventories, and purchasing activity slowed. Fourth-quarter earnings for companies in the STOXX 600 Index are projected to increase 1.5% from a year earlier, according to LSEG. The MSCI Europe Index Net returned 6.5% for the month. Within the index, all of the sectors rose for the period. Information technology and communication services were the top performing sectors, while consumer staples and utilities were the bottom performing sectors over the month.

Fund Performance. The fund returned 5.22% in January, lagging the benchmark by 107 basis points. Sector allocation was a driver of relative underperformance.

Fund Strategy. Against the backdrop of a slowing European economy, we believe the portfolio is well positioned, despite potential for near-term volatility. We assess companies for their long-term fundamental attractiveness based on existing investment criteria and incorporate the implications that a recession may have on these. Our preferred sectors are industrials and consumer staples, and our preferred regions are the United Kingdom and Ireland.

LIST OF PROSPECTIVE INVESTMENTS

The following are among the Fund's approved investment outlets, wherein the Trustee intends to invest depending on strategy, availability, or other market-driven circumstances:

- (a) Primarily in a single collective investment scheme whose investment objective is to provide investment results in excess of the return of the MSCI Europe Index; provided further that such CIS is approved or registered and supervised by a regulatory authority that is a member of the International Organization of Securities Commissions (IOSCO) and managed by reputable fund manager/s; provided further that the investment in the said collective investment scheme should at least be ninety percent (90%) of the total assets of the Fund. The Target Fund must be recognized as a collective investment scheme in its home jurisdiction by a regulatory authority or any regulatory authority acceptable to the BSP to supervise this CIS. Such collective investment scheme must not have any investment exposure in other collective investment schemes.
- (b) Primarily short-term tradable fixed-income instruments issued or guaranteed by the Philippine government or the BSP; tradable securities issued by the government of a foreign country, any political subdivision/agency of a foreign country or any supranational entity; tradable fixed-income instruments issued by foreign or local financial institutions or private corporations; exchange-listed securities; marketable instruments that are traded in an organized exchange; loans traded in an organized market; and, such other tradable investments outlets/categories as the BSP may allow. Provided, that, a financial instrument is regarded as tradable if two-way prices are quoted, readily available or regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.
- (c) Primarily short-term tradable fixed-income instruments issued, underwritten, or otherwise dealt by BPI and/or any of its subsidiaries, affiliates, their successors-in-interest or assignees, their directors, officers, stockholders, and related interest, and any of their trust and fund managed accounts, under such terms and conditions as the Trustee may deem to be in the best interest of the Fund; and, any such other instruments as may be allowed under BSP regulations. Investment with related interests shall be in accordance with Subsection X410.12 (a) of the Manual of Regulations for Banks.
- (d) The principal investments of the Fund will be denominated in, but not limited to the U.S. Dollar.
- (e) Bank deposits, BSP special deposit account or tradable debt instruments issued by the BSP.
- (f) Such other investments allowed under regulations issued by the BSP.

INVESTMENT OBJECTIVE OF TARGET FUND

The Wellington Strategic European Equity Fund seeks long-term total return (that is capital gain and yield). The Portfolio seeks to achieve this objective by investing predominantly in a diversified portfolio of European-domiciled companies that enjoy earnings and cash flow growth that are greater than the average earnings and cash flow growth of constituents of the MSCI Europe Index.
